

## **PROTECT MARRIAGE!**

Kansans will have the opportunity on **April 5** to clearly define marriage in our State Constitution.

It is vital that we do this, yet there are those who oppose it.

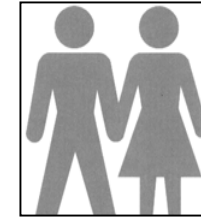

### **Answering the Critics:**

- ◆ Clearly defining traditional marriage in our State Constitution is not discriminatory! It is about protecting the institution which has been the basic foundation of society for over 5,000 years.
- ◆ Marrying anyone you want is not a 'civil right'. There is a clear difference between a person's skin color and sexual preference. Opponents of traditional marriage are trying to hijack the civil rights mantle to advance their own cause.
- ◆ Marrying anyone based on feelings is not an individual 'right'. If so, then why not allow someone to marry two adults? Or three or ten? Or, why not allow an adult to marry a child or his pet?
- ◆ Allowing same-sex marriages does hurt all marriages because it opens up society to an untested social experiment. Studies which have been done on the effects of gay marriage in the Netherlands have been sobering showing 'less frequent marriage, more frequent out-of-wedlock births, and skyrocketing family dissolution.' Allowing same-sex marriage has not been good for society.
- ◆ This amendment is necessary because Kansas' *statues* are vulnerable to judicial activism. We can't allow the same thing which happened to the citizens of Massachusetts to happen here.

## **VOTE 'YES' on April 5!**

**Don't miss this chance to protect the sanctity of marriage!**
